EXPERIENCE

Fiverr & Out of Marketplace — *Freelance WordPress Developer*

2021– Present

- Developed custom WordPress plugins and themes tailored to client requirements with clean code, modular structure, and high performance.
- Built complete eCommerce stores using WooCommerce with advanced features.
- Created professional business websites, LMS platforms optimized for speed and conversions.
- Designed modern portfolio websites and custom layouts for creatives and professionals.

EDUCATION

BUTEX, Tejgaon, Dhaka— *BSc. in Textile Engineering*

MARCH 2019 - OCTOBER 2024

Studied Textile Engineering at BUTEX with a strong focus on Computer Programming, Mathematics, and Statistics, building the analytical and technical foundation that supports my work in software and WordPress development.

PROJECTS

Tee Time Booking Pro — *Golf club booking system*

A fully custom booking system featuring an independent payment gateway, automated mailing system, and POS + online customer booking workflow for managing golf club slot reservations.

EsimAccess — *eSIM Provider Integration Plugin*

Built a fully functional customer account portal connected to external eSIM APIs, including activation management, usage display, and purchase workflows.
